

COMPACT PIEZO P2K & COMPACT PIEZO LED

■ stop no space left

There is simply no space left in your practice rooms – and your large scaling unit is one of the reasons for that?

▶ start no space needed

What if you needed no space at all for this unit? The COMPACT PIEZO P2K and the COMPACT PIEZO LED are powerful scaling units which can easily be integrated into nearly every dental chair – and then be operated simply via its controls.

▶ high precision

The ultrasound performance can be controlled perfectly due to its electronic feedback system.

▶ handpiece

The handpiece is made of titanium and Radel – which makes it 100 % sterilizable.

APC

► **SOFT MODE**

The SOFT MODE guarantees a perfectly gentle but still efficient insert movement.

► **slim handpiece**

Slim ultrasonic LED handpiece with circular light - lightweight only 55 g!

INSERTS

■ stop only for scaling

You have to deal with countless indications and treatments everyday – however the inserts offered by most dental brands are limited to scaling only.

▶ start suitable for everything

Therefore, we offer you an unequalled variety of inserts – for every indication, every treatment, and every situation you will face in your daily practice.
